

## Vacuum Packing Machine of Large-sized with Belt type

Product Image:

QR Code:

### Features :

1. Vacuum packing machine could extend the storage date of food and prevent the pollution which also could prevent the food be fresh, original, antiseptic, moisture-proof, and dust-proof.
2. Vacuum packing machine could prevent the electronic parts not antiseptic, moisture-proof, and dust-proof.
3. Easy operating, use friendly.
4. Using high-quality electric parts and vacuum pump which will be low failure rate.
5. Built with high quality stainless steel.
6. Using conveyor belt which can infeed, vacuum and seal by automatically. Just need one operator.
7. The cutting bag function is suitable with shrinking packing process.
8. It does can connect with soaking tank and air-dried device.
9. It's used with high-quality vacuum pump from Europe and designed by micro computer control system and electric control device which are waterproof.
10. 10 set memory storage device, and independent monitor which is easy to read.
11. To dispose the moveable brake wheel, this is easy to move.

### Use :

1. Any of foods which needs to keep fresh and prevent rotten.
2. Any of industrial chemicals which needs to keep quality.
3. Any of electronic parts and tools can be moisture-proof and dust-proof.
4. Meat , Poultry , Fish , Frozen Meat , Vegetarian Food , Power , Spices , Medicine , Spare Parts , Electronic Components , Hardware Products , etc...

### Specifications: (Unit: m/m)

Model	Mechanical Dimension (LxWxH)	Package Dimension (LxWxH)	Length of Sealing	Vacuum Pump	Power	Using Air Compression
WS-986	2635 x 1160 x 1100	950 x 1060x 300	880 x 4	3HP	4.4 KW	As customs' specified.

•We can also accept your order if your requirement is beyond our standard specification.
